Address: El Dakahlya, Mansoura, Egypt

PROFESSIONAL SUMMARY

Results-driven Flutter Developer with expertise in cross-platform mobile development using Flutter, Dart, and Bloc. Experienced in integrating RESTful APIs, Firebase, and building scalable applications with Clean Architecture. Passionate about optimizing performance and delivering engaging UI/UX experiences.

TECHNICAL SKILLS

• Programming Languages: Dart, C#.

• Frameworks & Tools: Flutter, Bloc, Cubit, MVVM.

• API Integration: RESTful APIs, Postman, Firebase.

• Databases: SQL, Hive, SQLite.

• Version Control: Git, GitHub.

• UI/UX: Figma, Adobe XD.

• Soft Skills: Problem-Solving, Communication, Adaptability.

PROFESSIONAL EXPERIENCE

Zbooma Company – Flutter Developer
Mansoura, Egypt | Mar 2025 – Jun 2025

- Developed three production-level apps: Angelina, Furniture, and Client Dashboard.
- Integrated RESTful APIs, implemented advanced UI features, and optimized performance.

NTI – Mobile App Development Trainee
Mansoura, Egypt | Dec 2024 – Feb 2025

- Built 3+ Flutter apps using Bloc and REST APIs.
- Improved app performance by 25%.
- Collaborated with UI/UX designers and backend developers.

CCIC – Mobile App Trainee

Mansoura, Egypt | Jul 2023 – Sep 2023

- Designed responsive UI and integrated APIs using Flutter.

- Reduced app load time by 30% through caching.

PROJECTS

Angelina - E-commerce App

• A modern, user-friendly e-commerce app that allows customers to browse, search, and purchase fashion and lifestyle products.

• Designed and implemented a fully responsive UI with product filtering, search functionality, and category-based navigation.

• Developed pagination logic for product listings to ensure smooth scrolling and reduced loading time.

• Technologies: Flutter, Bloc, REST APIs, Clean Architecture

• GitHub: [GitHub](#)

Zbooma App – Client Dashboard App

• An internal app for Zbooma's clients to track their service progress and plans.

• Built an intuitive dashboard where clients can view their progress, track achieved goals, and see what tasks remain — reducing the need for manual customer service communication.

• Focused on clean UI/UX and real-time updates from the backend using efficient API handling.

Technologies: Flutter, Bloc, REST APIs

Safe Drive App – Vehicle Safety App

- Real-time theft alerts, emergency contacts, and Google Maps integration.

- Built using Clean Architecture, Cubit, Firebase, and Hive.

- GitHub: [GitHub](#)

EDUCATION

- **Bachelor's degree in computer science.**
- **Mansoura University**, Egypt | Sep 2020 – Jul 2024.
- Accumulative Grade: Very Good.
- Graduation Project: Excellent with Honors.
